

Pontes Hotéis & Resorts now also offers an App to its guests

With its privileged locations in Recife and Porto de Galinhas, the hotels of the chain are among the highlights of Brazil's Northeast. The portfolio included the [Hotel Atlante Plaza](#), the [Mar Hotel Conventions](#) and the [Summerville Beach Resort](#), which reopened in July.

The [Pontes Hotéis & Resorts](#) chain, which always seeks to innovate and surprise its guests, now has a special novelty. Now, its customers have an app at their disposal to make the most of their stay and be able to interact with the hotel, maintaining physical distance!

HIGHLIGHTS

- Control of room costs by guests themselves, with [My Bill and Check-out](#)
- [Mobile Key](#) directly on the smartphone of Hotel Atlante Plaza guests
- Automatic insertion of room service orders in the POS
- Room cleaning and maintenance requests
- All information about the hotels and points of interest in the cities

In addition to these features, each hotel's application is integrated with several of the chain's systems:

- [Opera PMS](#)
- Service Monitor (a tool used by the hotel to manage team tasks)
- [POS](#) and Ticketing system
- [Assa Abloy](#) door lock system

Project Manager at Pontes
Hotéis & Resorts

Eder Pelachim
Technology Manager at Pontes
Hotéis & Resorts

"We are reopening our resort with many new features! Among them, an App developed in partnership with Nonius, where the guest will have information about the hotel, points of interest in the city, consult the billing statement and can request various types of services, including express check-out. During the development of the project, we had a very good experience with the company, only making it possible to complete it in record time thanks to the partnership and availability of the entire team that worked with us."

"It's always a great privilege to work with Nonius, and once again, this partnership proved to be strong and efficient. All our efforts were rewarded with the delivery of the product in record time. We focused on assembling appropriate content, always thinking about the best experience for our guests, offering practicality and functionality in the palm of their hand."
